

MEETING DATE:	CITY OF STOCKTON	
October 26, 2009		
COMMITTEE:	Sewer & Water	
THOSE PRESENT:	Jack Roberts	Chad Larson
	Bill Trygstad	
	Beth Winchester	
	Wm. Wehlage	
	Adam Johnson	
	Chris Parker	
	Mike Wadewitz	
DISCUSSION POINTS:		
Water Project:	Open cut left: Co. Rd. 23 north, Wadewitz property - Drilling: service lines, Alleyway between	
Main Line:	5 & 6 Street. Not sure if blacktopping will be done this year, depends upon blacktop plant.	
	All main line south of Hwy 14 is finished, some lines already pressurized. Discussion held on	
	the culverts which will need to be re-graded. Requested that Chad put the water way back	
	onto the 8310 W. Main & 8370 W. Main. Complaints being received of them working later	
	than 8:00 pm, Trygstad will discuss that with them. Blacktop that has been broken will need to	
	be patched, and some fire hydrants are to be checked for straightness. Trygstad will create a	
	punch list at the end of things that will need to be done before the project will be paid in full.	
Reservoir:	Reforming walls has to be redone as they were only 20" thick and were suppose to be 22"	
	thick. Top needs to be poured and cured, then filled w/ water and a leak test. They will then	
	back fill and do another leak test. Then the tank will be drained and then filled by our well.	
	Curb & gutter is staked and hope blacktop street will be put in this year.	
Water Rates:	Parker did a water billing model. \$3.11 per 1,000 gallons, plus a \$10 base fee this averages out	
	to \$24 per month at 4,500 gallons average use. Anything over 9,000 gallons usage would be	
	billed at \$2.33/1,000 gallons. This is all based on the 40 users already on the line and another	
	40 users to hook up.	
Chad: Generator:	Generator has two estimates for electrical wiring. 1) Dick's Electric says generator can't be	
	used for sewer 2) Norm's says it can be protable and used for the sewer.	
	Committee recommends going to multipurpose use and get a trailer.	
Trailer bids:	1) Ferguson's, already built \$2350 2) Connaughty of Rushford, axel: \$1700-2000	
	Has another bid for Volkart's but he hasn't picked up the estimate.	
Dialer/Lights:	For emergency purposes - need auto line for alarm	
Municipal Pipe:	8th & E Street manhole has a leak and Municipal will not come up just for this one job.	
	Committee stated after the 2005 televising & repairs the City would do a fraction of the City	
	every 3-5 years to keep ahead. Committee recommends televising the southwest quarter, with	
	bids from two companies first.	
Horsnell: End of Hillside Lane	There is no service line - Trygstad will put this service line in with the water project.	
	He will not be charged the \$1500 WAC if he signs up by Dec. 31, 2009 like everyone else.	
RECOMMENDATIONS TO COUNCIL:		
(ACTION REQUESTED)		
Generator:	Going to multipurpose use and buy a trailer to haul it	
Dialer/Lights:	Check into getting a dialer alarm like Lift Station #1 phone line.	
Leak:	Get two estimates for televising & repairing the southwest quarter of the City.	
Hornell:	Letter to homeowner for commitment if we confirm no WAC.	
Please complete and submit this form to the City Council for each Committee meeting held.		
Next meeting	Monday, November 30, 2009 – 6:00 pm	
01/02/05 (Admin-bjw)
