

MEETING DATE:	CITY OF STOCKTON	
September 26, 2011		
COMMITTEE:	Sewer & Water	
THOSE PRESENT:	Chad Larson	
	Adam Johnson	
	Wm. Wehlage	
	Jack Roberts	
	Mike Wadewitz	
	Beth Winchester	
DISCUSSION POINTS:		
Potter Culvert:	On the old road Potter road, the culvert needs to be cleaned out, it's partially plugged, hydrant will also need to be dug out.	
Wapasha:	Bill Trygstad call to say he did get a copy of the 3-year bond, and sent final payment to Jack Noll. Beth will email Mr. Noll and request no payment until the original bond has been received. Discussed the rip rap above the reservoir, since there was no official agreement Wapasha did do what they planned.	
Reservoir:	Chad should be taking pictures of the crack in the reservoir, he believes the water is coming from pin holes in the concrete. The leak is about 1/4 of the way up and is currently chipping away the paint around it. Bill Trygstad did talk about this at the September council meeting. There is still some black silt fence that should come out behind the flowers that were just planted.	
Winona Mechanical:	They will being Monday, October 3rd with the 5th Street and Broadway project first. Should contact Dean Aarre to see about the culverts on Broadway that will get taken out.	
N. Broadway Bridge:	Wehlage talked about someone spinning out and cutting deep ruts by the new bridge, he has filled them in. Discussed putting in road blocks until next spring to slow travellers down. Discussed the man holes that are still buried, talk with Erickson to get this done. There is still some bank erosion down by the lift station that may become a problem with spring thaw, may also have a problem on the other side since there isn't enough rip rap/gravel to hold under the bridge.	
Lift Stations:	Lift #1 was suppose to have a new propeller, wrong size, need to reorder the right size. Lift #3 was vacuumed, due to the gravel being inside. Lift #4 has been working, still catching things in the man hole basket.	
Hydrants:	Hydrant Flushing will be October 3-7 beginning 9 a.m. to noon.	
RECOMMENDATIONS TO COUNCIL: (ACTION REQUESTED)		
Potter Culvert:	Chad to dig out culvert and hydrant.	
Reservoir:	Remind Trygstad about pin hole leakage - Chad to take pictures.	
N. Broadway Bridge:	Place road blocks since project is not completed. Minnowa Construction must dig out man holes now.	
Next meeting	Monday, October 24, 2011 - 6:00 PM	
<i>Please complete and submit this form to the City Council for each Committee meeting held.</i>
